Ozone Hyper-thermic Sauna
Ozone is introduced into the open pores of the body while sitting in a warm steam cabinet. The ozone then penetrates fully into all tissue, including the blood, lymph and fat, allowing ozone in and toxins out. This therapy is one of the most powerful methods of detoxifying and oxygenating the body, treating a whole host of diseases.

Since the skin is the largest organ of elimination, the majority of the toxins are oxidized and sweated out. This helps with weight loss, skin beautification, infections, and irritations. It is also a great way to treat the lymph system, to help kill viruses, bacteria, and fungi.

It boosts the immune system and increases circulation, making it a great treatment for almost all health conditions.

Ear Insufflation (E.I.)
The ozone enters the ear canal and passes through the eardrum, which is semi-permeable. It treats bacteria or fungus such as Candida. It then travels to the eyes, lymph and brain, clearing toxins and helping to heal. This makes it a useful treatment for all head conditions.

E. I. is excellent for ear infections, mastoiditis; hearing problems caused by Candida; tinnitus; sinusitis; macular degeneration; retinitis, head colds; flu; bronchitis, asthma, allergies, epilepsy, ADHD, depression, headaches, Alzheimer's; Parkinson's and memory loss.

Vaginal Insufflation (V.I.)
Is a great method of introducing ozone into the whole body, including the lymphatic system and the blood stream. The gas makes its way into the uterus, abdominal cavity, and through the whole system. It is a very comfortable, relaxing treatment. This method helps female problems of all kinds - from endometriosis to thrush. Vaginal insufflation is used for any vaginal, uterine, ovarian, and abdominal problem, including pelvic inflammatory diseases, PMS, menopause, infertility, fibroids, UTI's, STD's, intestinal issues, liver problems, and lymph edema among many other conditions.

Breathing Ozonated Oil/Lung Insufflation (L.I.)
The person wears a nasal cannula and breathes ozone nebulized through olive & essential oils. It helps with detoxification and in healing tissue of the sinus, throat, and lungs. This is an excellent therapy for respiratory conditions such as asthma, bronchitis, COPD, sinusitis, throat issues, and pneumonia. A sinus nasal treatment is included.

Colon ozone/Rectal Insufflation (R.I.)
We fill an insufflation bag with fresh made ozone, which you easily self-administer in private. Ozone introduced via the rectum infuses through the intestinal wall into the blood stream via the portal circulatory system. This detoxifies the liver, promotes healing, decreases inflammation, and kills microbes. Rectal Ozone treats Fistulae, Hemorrhoids, IBS, Colon cancer, Diverticulitis, Fissures and abscesses, inflammatory diseases of the bowel, Ileitis, Proctitis, Ulcerative colitis, Crohn's disease, Lyme's, bacteria, parasites, viruses, and restores the flora balance disturbed by pathogenic organisms.

Ozone Acupuncture
Ozone is put into an acupuncture point of a tight muscle, degenerative, or arthritic joint. This helps to relieve pain, grow cartilage, treat arthritis, and stimulate healing. It works best when combined with CFT or laser therapy.

Ozone can break down excess adrenaline in the body, producing an overall sense of calm.

Medical Ozone Therapy - O_3 Oxygen Heals

Ozone is reactive oxygen that binds to diseases, damaged tissue, and microbes. It addresses many health conditions. Oxygen is what the body utilizes to heal.

Medical Properties of Ozone

Ozone has several general properties that account for its many clinical uses:

- *Improves circulation*
- *Anti-aging*
- *Anti-inflammatory*
- *Anti-microbial*
- *Regulates the immune system*
- *Increases energy in your cells*
- *Reduces the acid level of your body*
- *Increases oxygenation of your cells*
- *Destroys harmful chemicals and impurities*
- *Increases the efficiency of the body's anti-oxidant enzymes*

The more frequent the treatments, the more rapid the healing will be. We recommend 2-3 treatments per week.

Since so much healing takes place when doing any 0_3 therapy, we recommend taking extra nutrients, minerals, and proteins. We recommend green drinks and protein powder, otherwise you may be hungry.

Other O_3 therapies we offer:

- Bagging,
- Cupping
- Sinus infusion
- O_3 oil
- O_3 water

Ozone gets to the root cause of all diseases
